Para RANFERY JOSUA PEREGRINA MORALES <ranfery.peregrinamr@uanl.edu.mx>

CC VICTOR ALEJANDRO OVALLE PANTALEON <alejandro.ovallepntln@uanl.edu.mx>

Dear Mr. Ranfery Peregrina,

We are happy to inform you that the regular paper you have submitted to ERSeGEL, with number 22, entitled "Proposal for physical rehabilitation based on virtual reality using motion sensors: Inertial Motion Units (IMU) applied to university athletes.", has been accepted as a Short Paper. Papers accepted as Short Paper are assigned a 8-page limit in the conference proceedings.

All reviews performed by the program committee are now available at the PRIMORIS Author's Home <https://www.insticc.org/Primoris/>. Please login and then click on Author's home / Paper Reviews, to access the reviews.

The e-mail associated with your account is also your username: ranfery.peregrinamr@uanl.edu.mx

It is very important that you try to follow the suggestions indicated in the reviews during the preparation of the camera-ready manuscript.

Furthermore, it is EXTREMELY important that you follow the camera-ready paper format and preparation guidelines for the proceedings, which are available at the ERSeGEL web site <https://csedu.scitevents.org/Guidelines.aspx>.

Any non-conformance with the specified format may force the proceedings editing team to return the paper to you for re-formatting, and in case of repeated problems it may prevent your paper from being published altogether.

Concerning the presentation of your Short Paper, it was recommended that it should be presented in the format of a poster presentation. Please prepare it according to the instructions available at the conference website.

Please note that the publication of any paper in the conference proceedings requires that:

- we receive the camera ready version of your paper, via Primoris, until April 15, 2026;
- after submitting the camera ready you need to approve the copyright document - an icon named "Copyright" will appear at your "Author's Area";
- one of the authors must be registered as a speaker for this paper before April 15, 2026.

You can only complete your registration after you submit your camera ready; payment can be made during registration, or afterwards in some cases, using:

- Credit Card (directly on our system);
- PayPal (using a credit card - a PayPal account is necessary. Creating one may take up to 5 working days

due to the verification process);

- Bank transfer (the transfer should be done after the online registration is complete and it's only valid after the bank transfer document is received);
- Bon de commande/Purchase order (the document should be sent to the secretariat immediately after the online registration is complete).

A detailed explanation regarding each option is available during the registration process. Any queries regarding the registration or invitation letters must be sent to the following email address: registrations@insticc.org.

Should you have any other question please don't hesitate to contact the secretariat.

Best regards,
Andreia Pereira
