Dear Ranfery Peregrina,

We continue the preparation of CSEDU 2026 in order to provide the best possible experience for our participants.

The detailed program of the event is being prepared. As already advertised at the conference website, although the conference is back to the normal mode (i.e., in-person), exceptionally, speakers are allowed to present remotely if unable to travel to the venue (hybrid support).

Therefore, we would appreciate your kind help in letting us know as soon as possible, if your work is being presented remotely (no confirmation is needed for a in-person presentation). In that case, please use the following link to confirm this:

This link will be available during the next 5 days.

Only in the case that you have problems using the above mentioned link, should you contact me with your answer.

Best regards,
Andreia Pereira
